GALLERY ONE SARASOTA VISUAL ARTISTS STUDIOS GROUP EXHIBITION

This exhibition will present an unfamiliar dimension of the well known members of this Sarasota Visual Arts Group. "Anyone familiar with the works of these artists will be surprised and impressed by the bold strides the artists have taken with their newest creations," says the exhibit's curator Dustin Juengel. The exhibition will run parallel with the group's open studio series, during which the community is invited to visit the artists in their working spaces every first Saturday of the month from December through March. The seven artists showcased in this exhibition are Barbara Banks, Bill Buchman, Duncan Chamberlain, Larry Forgard, Michael Halfants, Grace Howl, and Dasha Reich.
