**Welcome.2012**  
[WWW.WORLDOFARTSHOWCASE.COM](http://WWW.WORLDOFARTSHOWCASE.COM)

I dream of a time when art and humanity are recognized as the most important aspects of our lives. That we look up to the greatest artists and humanitarians as our shining heroes and applaud thoughts that bind us and do not divide us as human beings. In the paintings in these rooms you have a common theme. All are expressions that reach out to humanity and yearn for a connection on a human level. All these artists are stars and they are all here for you.

I dream of a time when every man, woman and child embraces the arts as part of their daily life. No matter

if they paint, draw, write, compose, play musical instruments, dance or support the activities of such and bring it into their home and office; and most importantly apply it in their everyday life.

No matter if you run a Fortune 500 company or work two jobs to make ends meet, art can be applied to everything you do and everything you see. Art is a continual learning experience, a journey, if you will, with a sense of creativity and play. To live like this is to open yourself up to all the possibilities of life, and not its limitations.

A definition of art would be an art in itself. The World Of Art Showcase is a unique three day period where you can view some of the world's great contemporary paintings, most of which have been painted in the last 12 months. It is a place where you can take home a painting and enjoy it for all the days of your life. It is a place where you can talk to artists and exchange ideas. It is a place that combines fine art with music to build your spirits and make you stronger. I hope this event uplifts you and creates a lasting impression on the vastness and importance of the arts and their vital role in our world.

I want to thank each and every person who has put so much time into this most important event, and without whom it would not have happened.

Please enjoy!

David B. Goldstein,  
Founder and CEO  
World Of Art Showcase
